Proposal Form for Semester Project (OOP) - 2021

Project Title: HOSPITAL MANAGEMENT SYSTEM

Submitted To: Miss Zainab Zakir **Date:** April 26, 2021

1. Project Description:

This project i.e Hospital management system is based on the (Graphical User Interface)GUI programming. This project consists of 4 classes in which one of them is the main class.

The first screen which would appear after we run the file will be the login page in which we have to put an Id and a password. After the correction of id and password it will redirect the user to the menu page which consists of two options .One is the patient registration page and the second is the doctor availability page.In the last both of them after giving details will print a message according to the details the user have inserted.

Group Leader Name	Abdul Moiz Chishti
Roll Number	BSE-20F-022

2nd Member Name	Abdul Moiz Khan
Roll Number	BSE-20F-021
3rd Member Name	Muhammad Talal Moin
Roll Number	BSE-20F-016
4th Member Name	Shaheer Khan Qureshi
Roll Number	BSE-20F-003

3. Methodology:

Programming Languages	Java Programming language
