SIRSYED UNIVERSITY OF ENGINEERING AND TECHNOLOGY

DEPARTMENT OF SOFTWARE ENGINEERING

Lab 9 Introduction to Software Engineering.

TITLE:

Login page(Html Code).

Abdul Moiz Khan	**2020F-BSE-021**
Abdul Moiz Chishti	**2020F-BSE-022**
Shaheer Khan Qureshi	**2020F-BSE-003**
Muhammad Talal Moin	**2020F-BSE-016**

GROUP LEADER:

Muhammad Talal Moin

Task: To create a login page using Html, CSS and JavaScript.

Program features:

- There are two forms login and Register.
- In login form there are two fields Username and password with a check box of Remember Password.
- In Register Form there are three fields user Id , email and password with a checkbox of I agree to Terms & conditions
- If any of the field is empty and you click login an alert will appear that fields cannot be empty.
- You can go to Registration form clicking on Register button next to login button.

Html Code:

```html
<html>
<head>
    <title> login form </title>
    <link rel="stylesheet" href="Style.css">
</head>
<body>
    <div class="background">
        <div class="namebox">
            <p>Developed By:</p>
            <p> Abdul Moiz Khan (SE20F-021)</p>
            <p> Abdul Moiz Chishti (SE20F-022)</p>
            <p> Muhammad Talal Moin (SE20F-016)</p>
            <p> Shaheer Khan Qureshi (SE20F-003)</p>
        </div>
        <div class="formbox">
            <div class="buttonbox">
                <div id="bt"></div>
                <button type="button" class="toggle-
bt" onclick="login()">Log In</button>
                <button type="button" class="toggle-
bt" onclick="register()">Register</button>
            </div>
            <div class="social-icons">
                    <img src="fb.png">
```

```html
                        <img src="twi.png">
                        <img src="insta.png">
                </div>
                <form id="login" class="input-group">
                <input type="text" class="input-
field" placeholder="User Id" required>
                <input type="password" class="input-
field" placeholder="Enter Password" required>
                <input type="checkbox" class="check-
box"><span>Remember Password</span>
                <button type="submit" class="submit-bt">Log In</button>
                </form>
                <form id="register" class="input-group">
                <input type="text" class="input-
field" placeholder="User Id" required>
                <input type="email" class="input-
field" placeholder="Email Id" required>
                <input type="password" class="input-
field" placeholder="Enter Password" required>
                <input type="checkbox" class="check-
box"><span>I Agree to the Terms & Conditions</span>
                <button type="submit" class="submit-bt">Register</button>
                </form>
                </div>
        </div>
        <script>
            var x = document.getElementById("login");
            var y = document.getElementById("register");
            var z = document.getElementById("bt");

        function register(){
            x.style.left="-400px";
            y.style.left="50px";
            z.style.left="110px";
        }
        function login(){
            x.style.left="50px";
            y.style.left="450px";
            z.style.left="0";
        }
        </script>

</body>
```
```
</html>
```

<u>Output:</u>

- This is the Snapshot of login form.

- This is the Snapshot of Registration Form.
